AT A GLANCE

The jet models operate with jet propulsion instead of a...

The jet models operate with jet propulsion instead of a propeller and are therefore designed for shallow, rocky water. The specified power output is the power at the jet pump.

The FourStroke Jet 65 hp delivers 65 hp from a 4-cylinder in-line engine with a displacement of 2,100 cc. Dry weight from 171 kg. Alternator 35 A.

We professionally install, commission, and break in the engine. Price upon request – we would be happy to provide you with a quote including propeller, instrumentation, and installation.

DATA SHEET

Technical specifications
