The Mercury MerCruiser 4.5L MPI 200 hp sterndrive is a 4.5-liter V6 gasoline engine with electronic multi-point injection (MPI). This compact V6 is the entry-level model in the MerCruiser sterndrive range and is designed for use with the Alpha Drive system. Full throttle RPM is 4400-4800, alternator 70 A.

The price quoted is Brunswick Marine's non-binding recommended retail price including VAT for the engine with transom mounting system. The sterndrive, rigging package (instruments, shifting, steering), and propeller are priced separately – we would be happy to put together a complete offer for your boat.

DESCRIPTION (CONTINUED)

Installation, commissioning, sea trials, and service are handled at our workshop on Lake Constance.
