AT A GLANCE

The Mercury MerCruiser 6.2L MPI 300 hp sterndrive is a...

The Mercury MerCruiser 6.2L MPI 300 hp sterndrive is a 6.2-liter V8 gasoline engine with electronic multi-point injection (MPI). It features a 6.2-liter V8 with Digital Throttle & Shift (DTS). Full throttle speed is 5000-5400 rpm, and the alternator is 70 A. A SeaCore version with a closed cooling system is available upon request.

The price quoted is Brunswick Marine's non-binding recommended retail price including VAT for the engine with transom mounting system. The sterndrive, rigging package (instruments, shifting, steering), and propeller are priced separately – we would be happy to put together a complete offer for your boat.

DESCRIPTION (CONTINUED)

Installation, commissioning, sea trials, and service are handled at our workshop on Lake Constance.
