AT A GLANCE

The Mercury MerCruiser 8.2L MAG 380 hp sterndrive is a...

The Mercury MerCruiser 8.2L MAG 380 hp sterndrive is a V8 gasoline engine with an 8.2-liter displacement and electronic multi-point injection (MPI). It features a big-block V8 with 8.2 liters of displacement, digital throttle & shift, and a closed-loop cooling system as standard. Full throttle speed is 4600-5000 rpm, and the alternator is 65 A. A SeaCore version is available upon request.

DESCRIPTION (CONTINUED)

The price quoted is Brunswick Marine's non-binding recommended retail price including VAT for the engine with transom mounting system. The sterndrive, rigging package (instruments, shifting, steering), and propeller are priced separately – we would be happy to put together a complete offer for your boat.

Installation, commissioning, sea trials, and service are handled at our workshop on Lake Constance.
