AT A GLANCE

The GTX takes the GT7's design concept to a new...

The GTX takes the GT7's design concept to a new level: a super-wide, spacious deck with two separate seating areas and plenty of room to move around on board. The sporty console – available open or with a carbon hardtop and full-glass windshield – underscores the boat's dynamic character. The wave-breaking bow and super-deep, stepped-V hull ensure smooth handling and control, even at higher speeds. With up to 400 hp per engine, the GTX achieves cruising speeds of around 40 knots and a top speed of approximately 65 knots. High-quality features such as a wraparound teak deck and premium upholstery complete the picture of a true 10-meter-plus
