The Sea DNA 999 has been Technohull's original performance RIB...

The Sea DNA 999 has been Technohull's original performance RIB since 2005: a sleek, sharply defined silhouette, a central console with a sporty windscreen (optional aerodynamic hardtop), and two enveloping, shock-absorbing helmet seats. The patented Dynastream hull is a deep V with a sharp waterline and two highly ventilated steps; despite its narrow beam, it combines seaworthiness with full control at high speeds. The deck is available in several configurations (according to the shipyard brochure, bow as cabin, delta, or open; stern as an inboard, classic sunbed, straight, or U-shaped deck). Beneath the console is a hidden cabin with two
