The ZAR mini AIR 9 uses a high-pressure inflatable floor...

The ZAR mini AIR 9 uses a high-pressure inflatable floor (dropstitch) instead of a rigid floor, making it exceptionally lightweight and quick to assemble. It's ideal for those who appreciate a compact boat that requires no additional equipment. The inflatable tube is made of durable PVC, making it suitable for regular use on Lake Constance. At 2.70 m in length, the boat accommodates up to four people and is designed for outboard motors up to 15 hp.

Optional extras (at an additional cost): Seat bag for aluminum bench seats (various sizes)
