AT A GLANCE

The ZAR mini ALU 13 belongs to the Speedtube series...

The ZAR mini ALU 13 belongs to the Speedtube series and features a specially developed two-stage tube beneath the main tube. The robust, in-house manufactured aluminum floor makes the boat extremely stable and durable despite its foldable design. The specially developed two-stage tube (Speedtube) ensures a noticeably smoother and faster ride. The tube is made of PVC, making it robust and suitable for regular use on Lake Constance. At 3.90 m in length, the boat offers space for up to 8 people and is designed for outboard motors up to 40 hp.

Optional equipment (at extra cost): Seat bag for aluminum bench seats (various sizes)
