The ZAR mini RIB 8 is the most compact model...

The ZAR mini RIB 8 is the most compact model in the series, featuring a sturdy aluminum hull and three lifting eyes for easy launching. The lightweight aluminum hull allows for rapid planing even with low engine power and is resistant to gelcoat damage. The LITE version deliberately omits the bow storage compartment and double bottom, making it exceptionally light – ideal when minimal weight is paramount. The tubes are made of robust PVC, suitable for regular use on Lake Constance. At 2.40 m in length, the boat offers space for up to 3 people and is designed for outboard motors up to 4 hp. The fuel tank has a capacity of 12 liters.
