The ZAR mini RIB 9 combines a lightweight aluminum hull...

The ZAR mini RIB 9 combines a lightweight aluminum hull with compact dimensions, making it ideal as a maneuverable tender. Three to four lifting eyes allow for easy launching on board a yacht. The LITE version deliberately omits the bow storage compartment and double bottom, resulting in a particularly light weight – perfect when minimal weight is paramount. The tubes are made of robust and durable PVC, suitable for regular use on Lake Constance. At 2.70 m in length, the boat offers space for up to four people and is designed for outboard motors up to 6 hp. The fuel tank has a capacity of 12 liters.
